Example for a collection of generic terms to the war cripples on the blackboard:

Soldiers of World War I

- Heroisation of the soldiers through the community

- Soldiers as —— actors

 —— victims

- dead soldiers → heroic death!

- alive invalids → heroes??

- Attempts for occupational and social rehabilitation

- Community combined beggars and hurdy-gurdists with the invalids

- Invalides reminded the community of the lost war → So they wanted the war cripples out of public

Why were there so many invalids?
